NOTICE

[Workshop for all B.Sc and BCA students on Generative AI and Model Context Protocol (MCP)]

Dear Students, Career Counselling and Promotion Cell (CCPC) Bhadrak Auto College in collaboration with NxtWave Technology would like to conduct an exclusive workshop on Generative AI and Model Context Protocol (MCP) for the students of Bhadrak Autonomous College, Bhadrak led by an IIT alumnus and industry expert and Head of Engineering at NxtWave.

Generative AI helps create content such as text, images, videos, and code, Model Context Protocol (MCP) takes AI a step further by enabling multiple AI tools to collaborate and perform complex tasks automatically.

In simple terms, MCP connects AI tools so they can exchange information and complete tasks together without manual intervention, representing the next evolution in AI-powered systems.

Benefits for Students

- Learn how to build AI systems capable of performing real-world tasks
- Gain hands-on exposure to integrating AI with live data, tools, and APIs
- Understand how modern AI-powered applications are designed and deployed
- Improve readiness for internships, placements, and emerging AI engineering roles
- Receive a certificate of completion to strengthen their academic and professional profiles

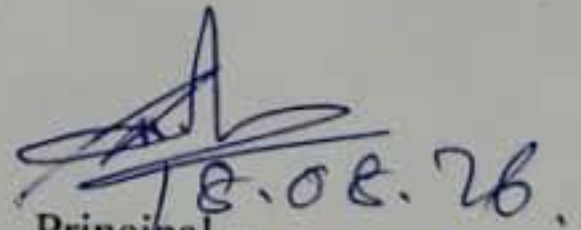

Workshop Details: Duration: 2.5 hours, Eligible Participants: 1st, 2nd and 3rd-year BCA and BSc students from all branches.

Date : 23/08/2026 [Sunday]

Time : 12 : 00 PM
